

## 11i Install, Patch, and Maintain Oracle Applications

**Duración:** 5 Días

### Lo que aprenderá:

---

This course provides students with a basic understanding of the architecture, database and file system used in Oracle Applications Release 11i. Students learn about the multi-tier architecture used to provide user access over the Internet or an intranet and the relationship between Oracle Applications and the Oracle database. The course covers the structure of the file system used to store the Oracle Applications product files, environment files, and additional files required to support multiple languages in Release 11i. Students also learn how to use Rapid Install to perform both single and multi-node installations of Oracle Applications, AD Administration and other AD utilities to maintain Oracle Applications, AutoPatch to automate the application of Oracle Applications patches, and Rapid Clone to clone an Oracle Applications system.

- Install Oracle Applications
- Use the AD utilities to maintain Oracle Applications
- Patch Oracle Applications
- Clone Oracle Applications

### Audiencia:

Functional Implementer

### Prerrequisitos:

Prerrequisitos requeridos (Recomendado)

11i System Administrator Fundamentals (Recomendado)

Knowledge of Oracle Database Fundamentals (Sugerido)

### Objetivos del curso:

---

- Use Rapid Install to install an Oracle Applications system
- Describe the Oracle Applications Architecture
- Use the AD utilities to perform Oracle Applications maintenance tasks
- Apply patches to an Oracle Applications system

- Clone an Oracle Applications system

---

**Contenido del curso:**

---

**11i Oracle Applications Install**

- Overview of Oracle Applications
- Single-node Installation
- Multi-node Installation

**11i Oracle E-Business Suite Architecture**

- Oracle Applications Environment
- Oracle Applications File System
- Oracle Applications Database
- Advanced Configuration Options

**11i Use Oracle Applications Utilities**

- AD Administration
- Special Utilities
- AutoConfig
- License Manager
- Reporting Utilities
- Configuration Utilities

**11i Patch and Maintain Oracle Applications**

- Patch Wizard
- AutoPatch
- OAM Timing Reports
- OAM Applied Patches

**11i Oracle Applications Advanced Topics**

- Cloning Oracle Applications
- OAM Rapid Clone
